Minimum 3 Maximum 5

_____	Male ____ Female ____
_____	Male ____ Female ____
_____	Male ____ Female ____
_____	Male ____ Female ____
_____	Male ____ Female ____

A team may consist of 3-5 skiers. Only the top three skiers from a team will score points for the team on any given night. The racers on any one team **DO NOT** have to be in the same race category (they do have to be skiing on the same night). Scoring for a team will happen in the same manner as individuals. Your finish place in your race (separated by gender, but not age) is your point value. A perfect team score for a night would be three, from 3 different first place race finishes. At the end of the season a team must have scores from all but one race. For example, if all six races are held a team's top 5 scores will be used. If only five races are held a total from 4 races will be used (and so on). Skiers on teams are also eligible for individual awards.
